

PAUBA ROAD

Reconstruction Project 2024

The County of Riverside Transportation Department proposes reconstructing Pauba Road between Via Del Monte and Calle Contento, an approximate 1.1 mile segment, in the Community of Rancho California. Pauba Road will be realigned both vertically and horizontally for better drivability and widened from the existing 20' wide road to a 26' wide road. The project will consist of removing the existing roadway, regrading the terrain to enhance existing sight distance, and repaving with new asphalt.

The project also proposes to improve drainage with new culverts and/or replacement of existing culverts, providing graded shoulders for equestrian use, and enhancing the striping and signing throughout the project limits.

FAST FACTS

Timeline: Construction will begin Fall 2024

Working Hours: 7 AM to 6 PM

Working Days: Monday through Friday

Access: Lane closures permitted during working hours.

*Access to driveways to be maintained at all times
