

New. Better. Best.

Scott Road/Interstate 215 Interchange Project

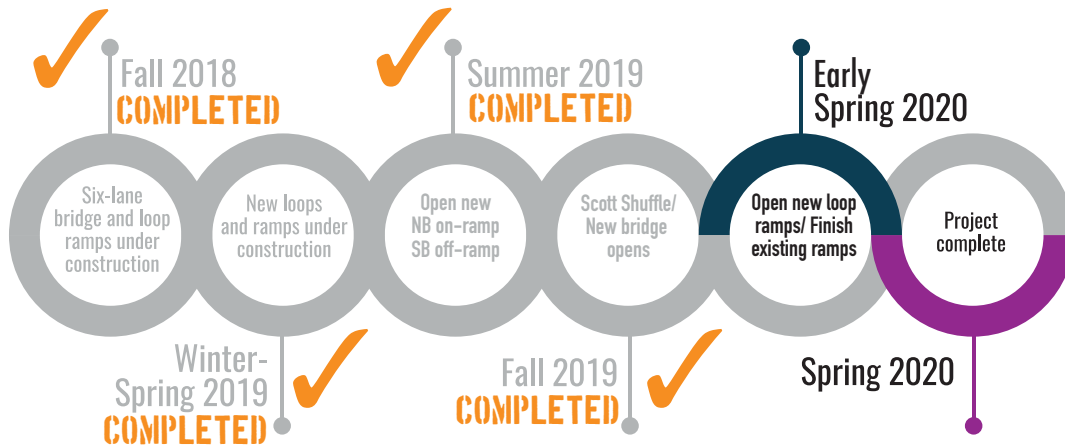

CONSTRUCTION ALERT / March 24, 2020

Construction Update

Weather permitting, work continues on the new 1-215 northbound loop off-ramp and southbound loop on-ramp. All the concrete paving is completed and crews are installing the guardrail, rock blanket for erosion control, and completing lighting and the drainage system. Motorists may notice new signage for the ramps in preparation for an early Spring opening.

Work will also be completed on the I-215 in the center median and along the new loop ramp merge lanes where crews are completing slope paving on the east and west sides of the bridge.

On Scott Road, crews will continue working on the final curb and gutter, asphalt pavement, signs, electrical signals and finish grading work.

Looking west at the southbound loop on-ramp

Looking east at the northbound loop off-ramp.

The information in this Construction Alert is subject to change without notice based on weather, field conditions or other operational factors.
